**FORM ADV PART 2A
BROCHURE**

This brochure provides information about the qualifications and business practices of Anson Analytics. If you have any questions about the contents of this brochure, contact us at 678-216-0794. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Anson Analytics is available on the SEC's website at www.adviserinfo.sec.gov.

Anson Analytics is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since the filing of our last annual updating amendment, dated March 15, 2018 we have the following material changes to report:

Our firm became SEC registered.

Wire Transfer Authority

Our firm or persons associated with our firm may effect third party wire transfers for client accounts without client written consent per transaction for client accounts. An adviser with authority to conduct unauthorized third party wire transfers has access to client assets, and therefore has custody of the clients assets in any related accounts. Pursuant to Rule 206(4)-2 (the "Custody Rule"), we have taken steps to have controls and oversight in place to support the no-action letter issued by the SEC on February 21, 2017 (the "SEC no-action letter"). With respect to third party standing letters of authorization ("SLOA") where a client may grant us the authority to direct custodians to disburse funds to one or more third party accounts, we are deemed to have limited custody. However, we are not required to comply with the surprise examination requirement of the Custody Rule if we are otherwise in compliance with the seven representations noted in the February 21, 2017 no-action letter.

Where we act pursuant to a SLOA, we believe we are making a good faith effort to comply with the representations noted in the SEC's no-action letter. Additionally, since many of those representations involve the qualified custodian's operations, we will collaborate closely with its custodians to ensure that the representations would be able to be met.

Item 4 Advisory Business

Description of Services and Fees

We are a registered investment adviser based in Tyrone, Georgia. We are organized as a sub-Chapter S corporation under the laws of the State of Georgia. We have been providing investment advisory services since 2004. Samuel Sweitzer is our principal owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Portfolio Management Services**
- **Financial Planning Services**
- **Pension Consulting Services**

The following paragraphs describe our services and fees. Refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we," "our," and "us" refer to Anson Analytics and the words "you," "your," and "client" refer to you as either a client or prospective client of our firm.

Portfolio Management Services

We offer discretionary and non-discretionary portfolio management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. Once we construct an investment portfolio for you, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

Assets Under Management	Annual Fee
1st million	1.00% on assets under management
2nd million	0.85% on assets under management
3rd - 5th million	0.75% on assets under management
6th - 10th million	0.50% on assets under management
11th - 30th million	0.35% on assets under management
31st - 50th million	0.30% on assets under management
Above 51 million	0.25% on assets under management

Our annual portfolio management fee is billed and payable quarterly in arrears based on the value of your account on the last day of the quarter. If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

We require a minimum account size of \$500,000 to open and maintain a portfolio management account. At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

Except for 401K and similar accounts which will invoice, we will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy. We will also receive a duplicate copy of your account statements.

You may terminate the portfolio management agreement upon 30-days' written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client.

Financial Planning Services

We offer consultative financial planning services to clients who require advice on specific areas of their finances. Our advice will address those specific areas of concern. We charge an hourly fee of \$265 for financial planning services, which is negotiable depending on the scope and complexity of the plan, your situation, and your financial objectives. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee. The fee is due upon completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$500. We may waive financial planning fees if you participate in our portfolio management services.

Financial planning advice is based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change. You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement.

Pension Consulting Services

We offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review, asset allocation advice, assistance with fund selection

and investment options, communication and education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

Pension consulting services will be provided pursuant to the agreement entered into and within the parameters set forth in the plan documents. Where the plan sponsor engages us to provide advice to participants on an individual basis, such advice will be limited to general retirement planning issues, and fund selection and asset allocation of plan assets. Fees are the same as those described in the "Portfolio Management" section above.

We also charge an hourly fee ranging from \$260 to \$370 per hour for pension consulting services, which is negotiable depending on the complexity and scope of the engagement. Depending on the type of account, we may charge an asset-based fee ranging from 0.50% - 1.25%, which is negotiable based on the level of services provided. Fees are due quarterly or semi-annually in advance, depending on the client's preference.

All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents.

Pension plan accounts are regulated under the Employee Retirement Income Securities Act ("ERISA"). We will provide consulting services to the plan fiduciaries as described above. Typically, the named plan fiduciary must make the ultimate decision as to retaining the services of such investment advisers as we may recommend. The plan fiduciary is free to seek independent advice about the appropriateness of any recommended services for the plan.

Either party to the pension consulting agreement may terminate the agreement upon 30-days' written notice to the other party. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to the client.

Retirement Plans and Plan Participants

As disclosed above, we offer various levels of advisory and consulting services to employee benefit plans ("Plan") and to the participants of such plans ("Participants"). The services are designed to assist plan sponsors in meeting their management and fiduciary obligations to Participants under the Employee Retirement Income Securities Act ("ERISA"). Pursuant to adopted regulations of the U.S. Department of Labor, we are required to provide the Plan's responsible plan fiduciary (the person who has the authority to engage us as an investment adviser to the Plan) with a written statement of the services we provide to the Plan, the compensation we receive for providing those services, and our status, which is described in the status section below.

The services we provide to your Plan are described under Pension and Consulting Services, above, and in the service agreement that you sign. Our compensation for these services is described in Item 4 in this brochure and also in the service agreement. We do not reasonably expect to receive any other compensation, direct or indirect, for the services we provide to the Plan or Participants, unless the plan sponsor directs us to deduct our fee from the plan or directs the plan record-keeper to issue payment for our fee out of the plan. If we receive any other compensation for such services, we will (i) offset the compensation against our stated fees, and (ii) we will promptly disclose the amount of such compensation, the services rendered for such compensation and the payer of such compensation to you.

Status - Anson Analytics is a state registered investment adviser and represents that it is not subject to any disqualification as set forth in Section 411 of ERISA. In performing fiduciary services, our firm is acting as a fiduciary of the Plan as defined in Section 3(21) under the Employee Retirement Income Security Act ("ERISA") for purposes of providing non-discretionary investment advice only.

Types of Investments

We offer advice on equity securities, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities, U.S. Government securities, options contracts on securities, and interest in partnerships investing in real estate, and oil and gas interests.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of December 31, 2018, we provide continuous management services for \$84,733,197 in client assets on a discretionary basis, and \$47,007,897 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Please refer to the "Advisory Business" section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through which your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Disclosure Brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, banks and thrift institutions, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we require a minimum of \$500,000 to open and maintain an advisory account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- Modern Portfolio Theory - We use the Modern Portfolio Theory as our primary method of analysis. According to Modern Portfolio Theory, it is possible to construct an "efficient frontier" of optimal portfolios offering the maximum possible expected return for a given level of risk. This theory was pioneered by Harry Markowitz in his paper "Portfolio Selection," published in 1952 by the Journal of Finance.
- Fundamental Analysis - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.
- Cyclical Analysis - a type of technical analysis that involves evaluating recurring price patterns and trends.
- Long Term Purchases - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- Short Term Purchases - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.
- Option Writing - a securities transaction that involves selling an option. An option is the right, but not the obligation, to buy or sell a particular security at a specified price before the expiration date of the option. When an investor sells an option, he or she must deliver to the buyer a specified number of shares if the buyer exercises the option. The seller pays the buyer a premium (the market price of the option at a particular time) in exchange for writing the option.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

While the Modern Portfolio Theory attempts to minimize risk for a given level of expected return by carefully diversifying the proportions of various assets, market risk is that part of a security's risk that is common to all securities of the same general class (stocks and bonds) and thus cannot be entirely eliminated by diversification.

The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance. The risk of cyclical analysis is that economic/business cycles may not be predictable and may have many fluctuations between long term expansions and contractions. The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.

Long term purchases may also be affected by unforeseen long term changes in the company in which you are invested or in the overall market. Short term trading generally involves a greater degree of risk than long term trading due to market volatility over a short period of time.

We may use option writing in limited circumstances when we determine that it is suitable given your stated investment objectives and tolerance for risk; however, engaging in these types of transactions are not a fundamental part of our overall investment strategy.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we recommend several types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and a different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Item 9 Disciplinary Information

We are required to disclose the facts of any legal or disciplinary events that are material to a client's evaluation of our advisory business or the integrity of our management. We do not have any required disclosures under this item.

Item 10 Other Financial Industry Activities and Affiliations

We have not provided information on other financial industry activities and affiliations because we are not affiliated, through control or ownership, with any of the types of entities listed below.

1. broker-dealer, municipal securities dealer, or government securities dealer or broker
2. investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund)
3. other investment adviser or financial planner
4. futures commission merchant, commodity pool operator, or commodity trading advisor
5. banking or thrift institution
6. accountant or accounting firm

7. lawyer or law firm
8. insurance company or agency
9. pension consultant
10. real estate broker or dealer
11. sponsor or syndicator of limited partnerships

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting Samuel Sweitzer, President and Chief Compliance Officer, at 678-216-0794.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this Brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell securities for you at the same time we or persons associated with our firm buy or sell such securities for our own account. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the "Brokerage Practices" section in this Brochure for information on our block trading practices. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To eliminate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

Suggestion of Brokers

We recommend the brokerage and/or custodial services of Fidelity Brokerage Services, LLC ("Fidelity") and TD Ameritrade Institutional (through the TD Ameritrade Institutional Program), a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC/NFA.

TD Ameritrade and Fidelity are unaffiliated SEC-registered broker-dealers and FINRA members. TD Ameritrade Institutional is a division of TD Ameritrade, Inc., ("TD Ameritrade") a FINRA/SIPC member. TD Ameritrade and Fidelity are independent and unaffiliated SEC registered broker dealers. TD Ameritrade and Fidelity offer services to independent investment advisers which include custody of securities, trade executions, clearance and settlement of transactions. We receive some benefits from TD Ameritrade and Fidelity through their participation in the program.

We believe that the recommended broker-dealer s/custodians provide quality execution services for you at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by recommended broker-dealers/custodians, including the value of research provided, the firm's reputations, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of research services and additional brokerage products and services recommended broker-dealers/custodians provide, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Research and Other Benefits Through TD Ameritrade Institutional and Fidelity

We participate in TD Ameritrade's and Fidelity's institutional customer programs. There is no direct link between our participation in the programs and the investment advice we give to you, although we receive economic benefits through our participation in the programs that are typically not available to TD Ameritrade's and Fidelity's retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving our participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have our fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. These products or services may assist us in managing and administering your accounts, including accounts not maintained at TD Ameritrade and Fidelity. Other services made available by TD Ameritrade and Fidelity are intended to help us manage and further develop business enterprises.

The benefits received by us or our personnel through our participation in the programs do not depend on the amount of brokerage transactions directed to TD Ameritrade and Fidelity. As part of our fiduciary duties to our clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by us or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our choice of TD Ameritrade and Fidelity for custody and brokerage services.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

In limited circumstances, and at our discretion, some clients may instruct our firm to use one or more particular brokers for the transactions in their accounts. If you choose to direct our firm to use a particular broker, you should understand that this might prevent our firm from aggregating trades with other client accounts or from effectively negotiating brokerage commissions on your behalf. This practice may also prevent our firm from obtaining favorable net price and execution. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that you will obtain through your broker are adequately favorable in comparison to those that we would otherwise obtain for you.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account

performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Samuel Sweitzer, President and Chief Compliance Officer of Anson Analytics, will monitor your accounts on an ongoing basis and will conduct account reviews at least quarterly and upon your request to ensure that the advisory services provided to you and/or the portfolio mix are consistent with your current investment needs and objectives. Factors included in the review include, but are not limited to: percentage holding in each security, percentage change in security prices, maturities and credit qualities of fixed income, percentage of each asset class and/or investment style held, overall stock/bond/cash allocation, and any account-specific triggering event stated in writing by you or included in a signed investment policy statement.

These reviews help to ensure that clients' portfolios are being managed in accordance with their financial situation, investment objectives, and risk temperament. It is also prudent for reviews to be triggered by events such as:

- Year-end tax planning;
- Market moving events;
- Significant or unusual contributions and withdrawals;
- Life altering events such as death, disability, and divorce; and
- Changes in risk/return objectives.

We will provide you with additional or regular written reports including benchmark comparisons, in conjunction with account reviews. You will also receive annual statements of accounts, including performance, realized gains/losses, and unrealized gains/losses. In addition, you will receive statements directly from your account custodian(s) at least quarterly.

Item 14 Client Referrals and Other Compensation

We do not receive any compensation from any third party in connection with providing investment advice to you nor do we compensate any individual or firm for client referrals.

Please refer to the *Brokerage Practices* section above for disclosures on research and other benefits we may receive resulting from our relationship with TD Ameritrade and Fidelity.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your account (s) causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. We will also provide statements to you reflecting the amount of advisory fee deducted from your account(s).

Wire Transfer Authority

Our firm or persons associated with our firm may effect third party wire transfers for client accounts without client written consent per transaction for client accounts. An adviser with authority to conduct unauthorized third party wire transfers has access to client assets, and therefore has custody of the clients assets in any related accounts. Pursuant to Rule 206(4)-2 (the "Custody Rule"), we have taken steps to have controls and oversight in place to support the no-action letter issued by the SEC on February 21, 2017 (the "SEC no-action letter"). With respect to third party standing letters of authorization ("SLOA") where a client may grant us the authority to direct custodians to disburse funds to one or more third party accounts, we are deemed to have limited custody. However, we are not required to comply with the surprise examination requirement of the Custody Rule if we are otherwise in compliance with the seven representations noted in the February 21, 2017 no-action letter.

Where we act pursuant to a SLOA, we believe we are making a good faith effort to comply with the representations noted in the SEC's no-action letter. Additionally, since many of those representations involve the qualified custodian's operations, we will collaborate closely with its custodians to ensure that the representations would be able to be met.

If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact Samuel Sweitzer, President and Chief Compliance Officer, at 678-216-0794.

Item 16 Investment Discretion

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a power of attorney, and/or trading authorization forms.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of applicable securities, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitations to vote proxies.

Class Action Lawsuits

Registered Investment Advisers are not required to assist clients in pursuing class action lawsuits, and as such, Anson Analytics will not fill out paperwork to help clients participate in lawsuits against companies whose securities they own. Anson Analytics will not provide advice to clients regarding litigation against those companies, since this practice may be construed as legal advice.

Item 18 Financial Information

Our firm does not have any financial condition or impairment that would prevent us from meeting our contractual commitments to you. We do not take physical custody of client funds or securities, or serve as trustee or signatory for client accounts, and, we do not require the prepayment of more than \$1,200 fees six or more months in advance. Therefore, we are not required to include a financial statement with this brochure.

We have not filed a bankruptcy petition at any time in the past ten years.

Item 19 Requirements for State-Registered Advisers

We are a federally registered investment adviser; therefore, we are not required to respond to this item.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as required by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will never sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Samuel Sweitzer, President and Chief Compliance Officer, at 678-216-0794 if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.
